Barrett's Beauty

FOREWORD

After a long cold wet spring, I finally got started to plant on April 25th, which is perhaps two weeks later than normal in this area. However, even with cold nights, and cold rains, we cut our first spike on June 27th and as usual it was **RHETT BUTLER**. This was followed closely by spikes of **TRUELOVE**, **FIRMAMENT**, **DARLA**, **GAYLORE**, **LADY JANE**, **E. C. COLE**, **SNOW PRINCESS**, **FLORENCE NIGHTINGALE**, **ELIZ. THE QUEEN**, etc., all coming in early, and producing good cutting spikes for the early market, which brings in the best price.

Just how any cut-flower grower can get along without **DARLA** and **RHETT BUTLER** in this northern portion of the country, is more than I can understand. Both of these varieties are so early, and so productive of excellent cutting spikes, that I make more money out of them, than the later bloomers. You fellows who want early cut-flowers, should stock heavily on these two, and quantity prices are now within range of the larger growers and permit sizeable plantings, at profitable prices.

GAYLORE, Jack Harris' older origination, is without a doubt the finest salmon pink with white throat commercial we have, and it produces 100% cutting spikes, with nice long stems, good flower heads, that open just right. It has also been much overlooked by the cut flower growers.

FIRMAMENT, a new blue from Pfitzer, opens two weeks ahead of **BLUE BEAUTY** and is therefore a valuable variety for the cut flower grower.

CORONA, an oldie, which has been discarded by many because of poor health has been rogued by us, until we have a strain now, by selection of individual plants, that is healthy, blooms early, and shortly we shall have sufficient stock to offer to the trade.

TRUELOVE, while not tall, makes an excellent cutting spike for the early trade, coming into flower from large and medium sized corms, in about 65 days, and being a beautiful shell pink, the florists are mad about it in early July.

I shall discard all early whites this season, and stock none except **FLORENCE NIGHTINGALE**. This glad, will quickly replace every commercial white, and is presently low enough in price to warrant discarding such oldies as **SNOW PRINCESS**, etc. It has again this season won more Championship Ribbons than any other glad, proving it's ability to beat the best of the new, and you should stock this one heavily.

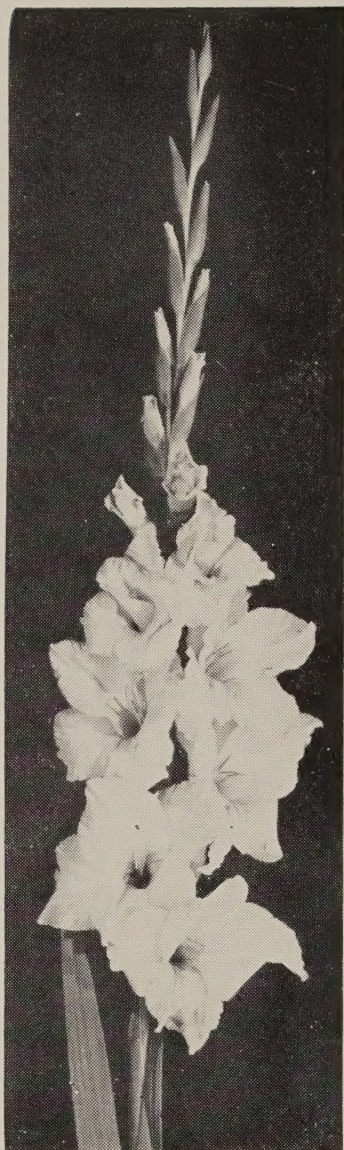

Now, to get along with the parade. Next in line, comes the new **LORD ELGIN**, early ruffled red, followed closely by **IVY**, and **MARGARET JEAN**. Next to bloom for me, was another newie, **WINONA**, a light cream, which is out of this world, and early yet. Then another new one, **AYLMER GLORY** came in, followed by **RED GLEAM**, **CYNTHIA**, **WHITE STAR**, **KATHY LEE**, **CREAM ORCHID**, **BROWN EYES**, **GOLD**, **FRIENDSHIP**, **ORCHIS**. Then with some additional fanfare, came **POLYNESIE**, **MELLOW MOON**, **BONNIE BRAE**, then a glamour gal, **LYNNE HILL**, which you will love, followed by **ROSEBLOOM**, **AUTUMN MOON**, **CREAM ORCHIDS**, **ANNE SHERMAN**, **LADY GRACE**, **REDOWA**, **CLAIRE WALLACE**, **MY DEAR**, **BLUE DEVIL**, the new **INDELIBLE**, **VALDA**, **ROYAL FLUSH**, **CATHERINE BEATH**, **VOGUE**, that regal gal, with the near east "Come up and see me some time" look, **KASHMIR**, **SHALIMAR**, **BARRETT'S BEAUTY**, **SUNDANCE**, **HONEY DEW**, **TASCO**, **GLORY**, **YELLOW FLARE**, **GRACE DARLING**, **PEACH GLOW**, **SIERRA SNOW**, **STERLING**, **DOLLY VARDEN**, **FRASER**, **DAYBREAK**, **EDITH WARR**, and after that I could not even keep up with them. Just remember, this is the way they came into flower, not in any color group, just the way they appeared, as though you were watching a great parade of beauties, as they passed the grand stand. Oh, yes, **ROSITA**, that dancing glamour gal, in rose, that will lead you astray, if you don't watch out.

What, you ask, shall I do about selecting something new to add to my meager collection from such an array as this, or your list in your catalogue. Listen, I know just how you feel, and I shall take care of You and You, and You, in another portion of the catalogue.

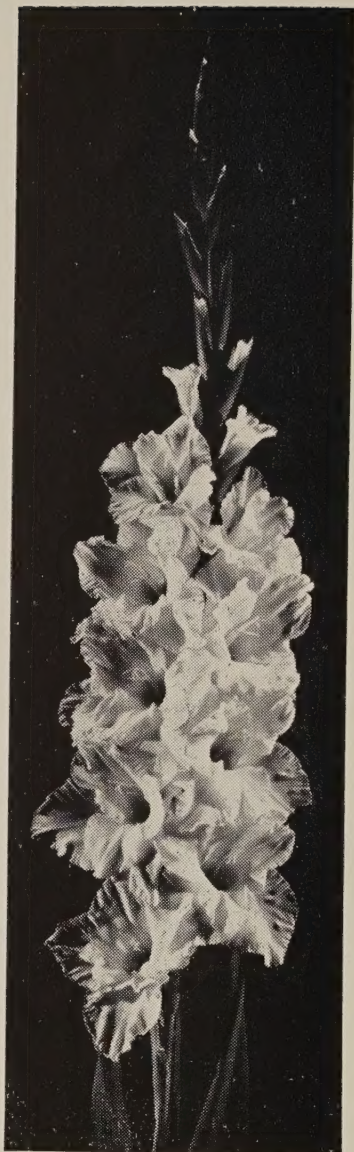

Gosh, now I must try to get together a "MUST" list of all colors. What a life? Oh, well, I promised it, and by The Great Lord Harry, you shall have it. Shall I start with whites? Okay. Here we go. **FLORENCE NIGHTINGALE** (How I love that gal), **SIERRA SNOW**, **MOTHER FISCHER** (She must be a wonderful lady Carl) **WHITE STAR**, **LADY GRACE**, **EASTER MORN**, **EVENING STAR** (Like a star over Bethlehem) **GLORY**, **CRYSTAL BEAUTY**, **BARRETT'S ATOMIC**, and by Golly you should find enough here. Creams, you say? Well, how about **CONNIE G.**, **LEADING LIGHT**, **HEART O'GOLD**, **DAYBREAK**, **CREAM ORCHIDS**, **WINONA**, are certainly among the finest.

Easter Morn

Let's see, don't we usually list yellows next? Okay, here we go. Try and beat **FOR-SYTHIA**, **SUNDANCE**, **GOLD**, **KATHY LEE**, **AUTUMN MOON**, **CATHERINE BEATH**, **YELLOW FLARE**, **AUREOLE**, with **YELLOW SEA** and **YELLOW BIRD** among the little fellows.

Now to the pinks. Oh, Brother. We have to break them down into classes there are so many. First the rose pinks. **DARLA** comes into flower in 60 days, and makes us real money as a cutter, followed closely by **JUNE ROSE**, **AMERICAN BEAUTY**, **NOWETA ROSE**, **ELMER'S ROSE**, and of course in the strictly exhibition class, where can you beat **BURMA** and **LILA WALLACE**. **ROSY FUTURE** will thrill you with its unusual color. The 3 new Teeple seedlings, **AYLMER GLORY**, **ORCHID MIST**, and **LYNNE HILL**, are all in this class, but somewhat advanced. Of course we cannot pass **MISS WISCONSIN**. Still a jewel. **ROSITA** and **SHALIMAR** are exciting and will thrill you.

Then into the giant classes, pink pinks, if you please. What a class, and what a selection. It drives you dizzy to enumerate them, but they are beautiful, and the gems of the glad world. I am not separating the salmons, because to the average amateur, they are also pink. **EDITH WARR** seems to be our outstanding candidate for top honors this

season. **GAYLORE, SPIC & SPAN, JINI MARIE, DOROTHY MARGARET, HONEY DEW, BONNIE BRAE, ANN SHERMAN, ADORABLE, GRACE DARLING, COMPLEXION, SUPREME BEAUTY, PINK SATIN, CITATION, KOKOMO GIANT, MISS MADISON, DOLLY VARDEN** and **FRASER** are certainly among the topnotchers in this class. **EVANGELINE** still winning champion spike, and **HEART'S DESIRE, REGAL LADY**, have to be mentioned here. This does not by any means include even a small percentage of the good ones, but it surely gives you something to start on.

The red class, while seemingly large, is actually not as big as you might think. I am including scarlets here. For commercial cut-flower use, there is nothing to beat **RHETT BUTLER**, clarity of color, brilliance, and earliness, make it a "MUST HAVE". **RED CHARM NANCY, RED CHERRY, DIEPPE, MANDARIN, REDOWA, RED FEATHER**, with the King of ruffled reds, **ROYAL FLUSH**, still ruling the roost. Among the new ones, **RED TOWER**, and for heaviest ruffling and texture, **LORD ELGIN**, with its statliness and regal bearing, will thrill you. **BIG JOE** still winning the longest flowerhead in the shows, **BON-FIRE** and **REGAL RED**, two grand commercials, but the class is still not crowded.

The lavender class has been greatly strengthened in the last two or three years. The new **HENRIETTA** is a grand lavender, Dr. Sisson's **CAPTIVATION** will be hard to beat, **MADELINE HEFTY, FALCON, BRIDAL ORCHID, MARTHA WASHINGTON, COLO-NIAL DAME**, and the older favorite **ELIZABETH THE QUEEN** are all topnotchers. **VAL-DA** while displaying a lot of rose, is still classed as lavender, and will be tough to beat. **MYRTLE GRACE** seems to be our earliest, to date.

The orange class is getting stronger too. **TASCO** seems to be tops up to now. **MARGARET JEAN, ENCORE**, are tops, and the older **TROCADERO**, and **SUNLIGHT**, are still in there winning their share of prizes.

The buff class is certainly interesting. Tops by a long shot is **PEACH GLOW**, and you will eventually grow it. **SUN-SPOT**, and **WILMA DITTMAN** still hard to beat. Many new seedlings in this class will greatly increase the number available in short order.

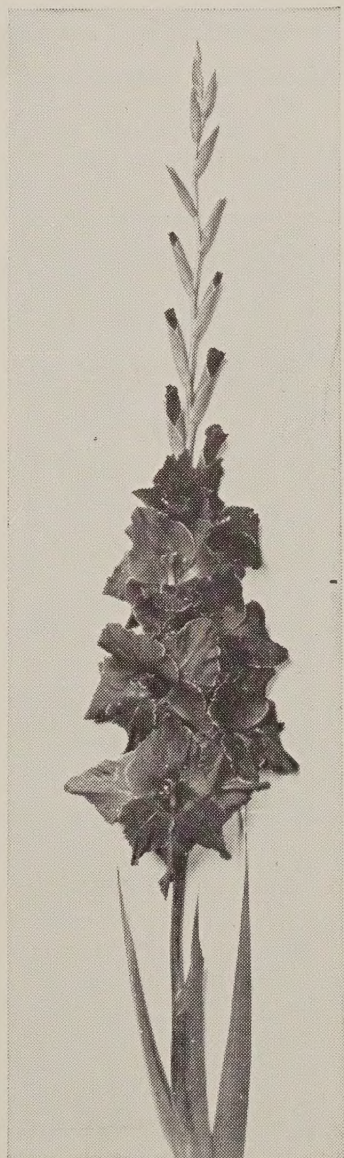

Blues are becoming quite competitive. **FIRMAMENT** still our earliest. **GREAT LAKES, BLUE LAGOON, BLUE BARON, BLUE DEVIL, TRI-COLOR**, all grand, while **BLUE BEAUTY** still wins, and is a great commercial.

Black reds, a favorite with many, is gaining strength. Tops for me this season was **ACE OF SPADES**. **VELVET MARVEL, BLACK CHERRY**, are all fine too.

Purples, which can stand the heat, and not burn, or peel are showing up. The best for me this year were **KING DAVID** and **KASHMIR**. They seem to rule the roost for the minute, but the new **INDELIBLE** will be right up there another season. **WONDER BOY** looks like one of those "Hard to beat" purples, and you will thrill to its marvelous rich color. **MODERN MISS** another great purple, and **PUR-PLE PRINCE** will make a great commercial. You have quite a choice now.

Smokies are going great guns. **STORMY WEATHER, OPECHEE**, and **SANDMAN** still rule the roost, but **MUL-BERRY QUEEN** looks very good, and it's very unusual. You should grow a few smokies.

These outstanding glads, are only a sample of what you will discover in the list but should serve as a guide, from which to make a start. If I attempted to list all of them, this catalogue would carry 150 pages, and I can't afford it.
